Technical / Tactical

- Defensive positioning
- Vision
- Ball control
- Passing
- Dribbling

Psychological

- Awareness
- Diligence
- Versatility

- Creativity
-

Physical

- Lacks structure to defend floating crosses
- Pace is average
- Inconsistent pressure intensity

Social

- Teamwork
 - Communication can improve
-

Summary

- Jae Won Hwang is a versatile player, able to contribute well in both phases in live ball situations. His defensive positioning and vision stand out. He can pick out dangerous passes, especially in transition. Considering his combination of technical and passing ability and his lack of pace, a switch to a central midfield role could maximize his skillset. Overall, Hwang is a diligent and adaptable player with a solid understanding of team dynamics but would benefit from further development in pressing and tackling.
